

JEEP PULLER

Model No. : CW25-3T
CW25-7T

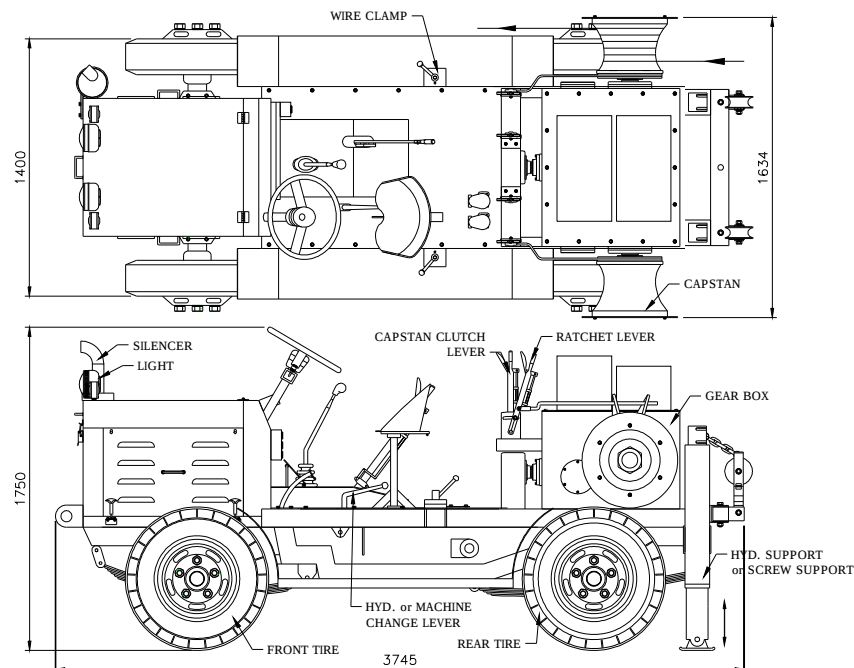

This JEEP PULLER is used for pulling, assembling and tensioning of overhead conductor and OPGW by self driving when stringing works of overhead conductor and OPGW, and highly improved working efficiency that is workable without demount of tires from the capstans.

FEATURES

1. 4 wheel drive system with mountain drive tires can be run anywhere even in mountain or swamp.
2. By being separation of running part and winch part; The capstan can work directly without demount of tires.
3. Even if the tires fall into swamp, the tires can be out of the swamp by hydraulic legs at rear of the puller.
4. Hydraulic legs easily can be operated by button or screw.
5. In case of working by reverse turning of the capstan, No pushing effect is made by improved gearbox.
6. The capstan was made bigger than before, and reduced damages of capstan and wire rope by friction reduced.
7. Lower bonnet makes better out look.
8. By attaching spring absorb system, much reduced vibration on drive, and also possible to drive on slope and rough road out order of transmission lever.
9. Well designed optional wheel is very easy to withdraw waste conductor or wire.

LAY-OUT

SPECIFICATION

Model No.	CW25-3T	CW25-7T
Max. pull	3.5 ton x 2 capstan	7 ton x 2 capstan
Max. speed	69 m/min	69 m/min
Max. rope dia.	Ø16 mm	Ø25 mm
Engine	Diesel 75 HP	Diesel 125 HP
Step	Forward 5 step , Reverse 1 step	Forward 5 step , Reverse 1 step
Capstan dia.	370 mm	380 mm
Dimensions(LxWxH)	3200x1580x1400 mm	3850x1950x1800 mm
Weight	2,500 kg	3,200 kg
Option 1	Tension. Speed. Distance meter	Tension. Speed. Distance meter
Option 2	Auto wire puller	Auto wire puller
Option 3	Auto wire clamp	Auto wire clamp
Option 4	Capstan reel (Φ800 mm)	Capstan reel (Φ1,000 mm)
